Miss Martha Brewster appointed by Anne Brewster Fanning chapter, D. A. R. at a recent meeting, is making arrangements to dedicate the large stone on the farm of Miss Mary Harvey which originally marked the northeast bound of the town of Norwich.

The first deed dates back to 1653 and this deed was afterwards ratified and confirmed by Owaneca, sachem of the Mohegans. There is a description of the stone in the Norwich land records of 1734. When Preston and Palainfield settled their boundary, in some way a triangular piece of land was left out and is now in Griswold. The stone is on this land and should have been the bound between Plainfield, Canterbury and Preston. But it was not used for some unknown reason and although a historic landmark, yet at the present day it marks no boundary. It is but a short distance from the railroad and trolley tracks, yet and can be seen easily as soon as the bushes are cleared away. The D. A. R. chapter has permission of the own term on whose land the stone stands, to right the stone, turn it around, and place suitable lettering on it.
